BRAND NEW-1

What follows is a summary to the best of my recollection the day after hearing major revelations by Johnny, who is a Bethelite, the headquarters of Jehovah's Witnesses in Brooklyn, New York (U.S.A.). He was a whistleblower last night (January 1, 2011) on the conference hosted by Rick and Inez Fearon. So, in just a few days at most Rick should have a tape up of what he said on the website <http://sixscreensofthewatchtower.com/sixscreens-conferencecall.html>

For example, Johnny told of seeing evidence that architects are involved in what appears to be some underground construction. He tensions has wonder if maybe they are for bunkers. He also sees Bethel construction crews coming and going about every 3-4 day; secret. He said he thinks Watchtower may be putting big money into that project.

He detailed the evacuation plan for at the world headquarters there in Brooklyn; for example in stage one they are to open a letter box where to hide the Gov Body members and do so; at stage two shred documents; at stage three get the Legal Department staff away areas it takes two passes for entering and exiting Legal's work area.

He revealed the name of at least one oil company Watchtower invests stock in, spoke about Watchtower's real estate investing, gave for monitoring the lives of Bethelites there as well as on the local level. He said if you doubt that Watchtower owns stocks then you headquarters, ask for Finances, then once there ask for Brokerage. Dying Jehovah's Witnesses are willing stocks and other assets. He also says a current Gov Body member ordered him to spy on and hack into Facebook accounts. They have an entire book listing and deal with. He is one of about 10-20 Bethelites systematically doing the internet monitoring and hacking. He replaced a previous that section if some of what he was reading about pedophiles in the Watchtower Society was true. The guy said yes then had the guy. The guy reports directly to the Governing Body (all or just one member not clearly known) and then elders are notified to act on that.

He says there are now 3 main Gov Body members of the 7 total who are wielding the most power. He said Governing Body member not long ago was the oldest voice of reasoning on the Governing Body. When alive Brother Barr became extremely upset at learning Witnesses are now being put under surveillance by the Watchtower.

Barr was so upset to learn of what the Big 3 were up to that Johnny said if they were going to do that then they might as well be publishing Watchtower magazine they sent to people, that he intensely regretted the Watchtower Society had come down to this. Johnny spoke he also wept often after his beloved wife (Mildred) passed away. Like himself she too partook of Memorial (Last Supper) emblem Anointed.

Yet, even though anointed and a Governing Body member's wife, when she tried to ask questions, the "Darkö side (doubtlessly my secretive Service Department) had her to shut up. They considered her a nobody although feisty, just a woman. Johnny used the darker, harsher doings of Watchtower and those involved in such operations. He recalled it may have been in South Carolina not so discovered about 30 anointed Jehovah's Witnesses were holding an extra once a week meeting to read the Bible together. They were Watchtower disfellowshipped nearly all of them. [I noted I have heard the word "Darkö also used like when elders speak of some of their own]

The three main of the seven men on the Governing Body going into 2011, fear and are at war with the other Anointed ones who do whatever it takes to shut up any there who question them. Johnny said tensions are so high there at Bethel right now that he can everyone there to split into two opposed camps. Bethelites are having mental breakdowns not just monthly or weekly but now on a when in been interviewed by Gov Body member Loesch who expressed especial interest in anything Rick could tell him about the

Who are the three? Johnny did not name who they are although he said the other Bethelites speak of the Big Three often. For example myself, if they might be Gerritt Loesch, David Splane and Guy Pierce or just who if not Samuel Herd, Geoffrey Jackson, Steve Let say other than that they rule as if "a trinity of three," getting their way over the rest. When Barr lived they considered sending in publishing Society into a stock-issuing company so that people could directly invest money in it which would have helped some with the money not to do so because if they did, they would have lost tax exemptions and other benefits that go with staying a non-profit.

However, others methods can be used to get more money. Outside of the possible secret project that Johnny believes includes some said he has no idea as to for what the money is going. He pointed out that the money problems are so severe they defer making a meeting place and it is so overused that it is in danger of possibly collapsing with many Jehovah's Witnesses inside of it. Safety talk dollars.

Among the many places that the internet monitors watch, he noted three in particular. I don't recall what they were but think one is silentlamb.org get especially close, daily monitoring. The book listing the many websites is a thick one. He described how hacked accounts of active Jehovah's Witnesses. Trojan viruses are sent to JW's and enter whenever the JW's click on a Facebook wink or on sixscreensofthewatchtower.com is also much monitored.

Johnny revealed that Watchtower regularly communicates via emails it sends out to its Elders. Watchtower also has a list of Jehovah's Witnesses Elders think are especially big troublemakers. Watchtower's enemies list of Ex-Jehovah's Witness includes not for particular others who are organizing protests against Watchtower. He said for example the Governing Body member who has him Jehovah's Witnesses also likes to get items that apostates (dissident ExJW's) write about the Governing Body.

He said he is thoroughly tired of the spying, feels its wrong. Johnny revealed he was speaking from inside a closet room somewhere undetected as using a prepaid mobile phone card. At one point contact with him was lost but he later came back briefly to say that However some emailed me who felt that when he returned his voice sounded unusual. They wondered if maybe he had been discredited to say that; wondered and still wonder about his staying safe and alive for that matter.

Johnny had earlier noted he had already gathered a large bundle of documents. He has them stored to where Watchtower cannot get happen to him then the documents could still also be revealed. Not long ago he found part of an item in a trash can, I believe he said Body holds meetings. It mentioned that more "intimidation" would be coming. Scientology for example tries to intimidate people draining their money and time via the lawsuits. That way their voices are silenced.

He said in any case he no longer cares if Watchtower catches him or not. He is tired of the nonsense. He said he had had a girlfriend day and not even her parents know where she went. I think he said this happened after she expressed doubts about Watchtower.

As said, he mentioned that people are tense in Bethel, awareness widespread of surveillance, mental breakdowns now daily. He said

then head of the cafeteria broke down, took a knife and tried to stab someone. There has been talk about Bethel headquarters getting drinking is not at all unusual. I think he mentioned an internal bar better stocked than most bars in the liquor businesses.

Also on the show was Mary, a newly exited JW, who in speaking with Johnny also discussed various things including the lack of p due to her stomach becoming upset every time she went to a Watchtower meeting at the kingdom hall, and she worries about the o loved and who have said they miss her so much.

She said that for example in the past few months her congregation lost some forty people although she knows one nearby that is fri says at her hall there are cameras and even when she goes into the bathroom she feels it necessary to turn off all the lights as an eld using it via a hidden camera.

Others including Jacqueline also talked about the cameras that have been installed at many of the kingdom halls and the Bethel wo both visible and not visible cameras..... Again, this tape will be an especially interesting one to hear as soon as Rick gets it up. In t conference, Rick said he'd also post the link for you guys possibly on jehovahs-witness.net besides definitely at his own website:

Sorry I can't remember all the details but there's enough here that you'd see why it's worth hearin,

I'm Joe Emerson whose own website also offers many useful items at:

Going left to right in the front roll in photo above are Gerritt Loesch, David Splane, John Barr and Ted J died in 2010. Thus far a Big Three of those remaining are wielding dominance evidently based on clou Service Department.
