Abuja - A police corporal, assigned to the Wuse Zone 3 Police Division, Abuja, died on Monday at the National Hospital after rejecting blood transfusion.

The husband of the deceased, Emmanuel Timothy, alleged in an interview with the News Agency of Nigeria (NAN), that the wife, Grace, who was a member of the Jehovah witness, died because her family refused to consent to her having a blood transfusion.

“She lost her pregnancy at seven months, which resulted in a surgery to get the baby out. After the surgery she had complications.

“When she complained of serious stomach ache, we rushed her to the National Hospital where the doctor said her stomach had to be flushed. “But, before the flushing, they said she needed blood transfusion because she had already lost such much blood.

“However, she did not get the blood transfusion because her religion and family forbid blood transfusion,” Timothy said.

When asked if he would press charges against the parents of his late wife, he said he might consider doing so. “I have to press charges because they prevented my wife from receiving blood transfusion. “Over our dead body. It is better she dies than for her to take another person’s blood,” they said to me.

Timothy was at the police station to report the wife’s death.

Blood Transfusion confusion. Jehovah’s Witnesses doctrine allows a liver transplant but not the blood that is in it. Reasonable points are raised about bloodless alternatives during ELECTIVE scheduled surgery. However, bloodless alternatives are no substitute for blood transfusions when there has already been massive loss of blood volume, as occurs in accidents and trauma leading to sudden blood loss.

Jehovah’s Witnesses believe that life is sacred to God therefore blood is sacred because it represents and symbolizes life. Jehovah’s Witnesses put a higher value on blood than they do life. Which is more sacred? The symbol or that which it symbolizes? No blood dogma does get people killed! Since 1945 year, 50-100 times as many men,women,children have been killed by the Watchtower society ban on “whole” blood transfusions than at Jonestown kool-aid mass murders. Please think about that!
