The Governing Body of Jehovah's Witnesses has staunchly stood against protecting children. See the recent evidence at this link, [Jehovahs Witnesses Fight to Protect Pedophile Paradise](#). The point of the article was to show clear mandates of the GB that protects pedophiles while putting children in danger. The decisions made by this small group of men have hurt hundreds of thousands of children that are members of Jehovah's Witnesses. It appears the only way to gain the attention of self serving haughty men is to make them pay in the form of litigation. Since 2001 Silentlambs has worked with over one hundred legal cases for abuse survivors to move the pebble up the hill and establish precedents that will help future victims to be successful. Last year after paying millions in settlements Watchtower went to an actual trial, they lost with a jury mandated judgment of \$28 million going to one victim. Members and ex members are now finally starting to see that the Governing Body is not invincible when taken to court and that the only way to humble these wretched men is to sue them out of existence.

Some day Governing Body members will be hauled before the courts to testify regarding their crimes against children. They may face incarceration, not for righteous service to God but instead for hurting kids. Until that day happens we will continue to give victims a voice and at Silentlambs we hope to see many, many more press conferences like the one listed below to bring justice for those who suffer in silence.
